

CONFIDENTIAL

Anonymizer® Intelligence Chameleon

- Very high capacity, load balanced network
- Complete data access and data integrity required for web harvesting and unstructured data management
- Connectivity to Anonymizer Chameleon Network with 99% up-time
- Priority support
- IP mixing: customer's traffic is indistinguishably mixed with the traffic from approximately 2 million other users of Anonymizer's privacy services
- Masks the IP of the client behind various Anonymizer® IP addresses
- Masking IP addresses are drawn from multiple non-contiguous IP address blocks
- Frequently rotated domain names and IP addresses
- Allows complete online anonymity with no trace back for identification of source
- No client software required
- Platform independent
- Ports and protocols:
 - HTTP, HTTPS

Secure Facility

- Biometric access control to facility
- Equipment in locked cabinets in facility
- 24/7 and "spare in the air" support programs available
- High security network firewalls
- Intrusion detection systems
- All required hardware at customer facility provided pre-configured by Anonymizer
- Proven security, trusted by government and law enforcement agencies since 1997
- Emergency generator for fast power switching
- Physically redundant network feeds
